General instructions

1. Minnesota Statutes § 176.130 provides that all wood mills that acquire more than 5,000 cords in a calendar year, either inside or outside of Minnesota, shall file a report setting forth the number of cords purchased and pay an assessment of \$.30 per cord of wood greater than 5,000 cords. The report and assessment are due on or before Feb. 15 of the following year. For audit purposes, this report must be filed even if fewer than 5,000 cords were acquired and no assessment is due.
2. The report should include all wood acquired either inside or outside the state of Minnesota, as well as wood acquired from sources employed by the mill operation. Mills that operate in more than one location should file one consolidated report to include the total wood acquired by all operations. Do not file separate reports for each location.
3. The report and/or assessment payment must be received or postmarked on or before Feb. 15. Penalties will be assessed for all reports/payments that are not received or postmarked by the due date. Minnesota Statutes § 176.129 provides a penalty of up to 15 percent of the amount of the assessment due, but not less than \$1,000, in the event the report and/or assessment are not timely filed. The penalty for filing a late report with no assessment due is \$200.
4. Requests for extensions will be granted only for reasons that are beyond the control of the mill and must be received or postmarked on or before the due date, Feb. 15.
5. Completed reports should be mailed to: Minnesota Department of Labor and Industry
Financial Services
443 Lafayette Road N.
St. Paul, MN 55155
